📍 Amin Colony, Haji Camp
Peshawar, Pakistan

TECHNICAL SKILLS

- Python
- R
- SQL
- C++
- JavaScript
- React.js

ML & AI

- Scikit-learn
- TensorFlow / Keras
- Deep Learning
- EfficientNet / ResNet
- Computer Vision

DATA & BI

- Data Cleaning
- Exploratory Analysis
- Data Visualization
- Power BI
- MySQL

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Continuous Learning
- Communication

SUMMARY

Motivated and analytical Data Science graduate from the Institute of Management Sciences, Peshawar, with a strong foundation in machine learning, computer vision, and data analytics. Proficient in Python, TensorFlow, SQL, and Power BI, with hands-on technical experience gained through academic projects—including a deep learning Final Year Project focused on image classification pipelines. Eager to apply solid theoretical knowledge, strong problem-solving skills, and a genuine passion for data-driven problem solving to an entry-level role or internship.

EXPERIENCE

Web Developer

Gear Nest | Pakistan | Jun 2025 — Present

- **Engineered and launched** a fully responsive e-commerce web application from scratch using **React.js**, focusing on seamless user experience and mobile-first design
- **Designed and translated** UI/UX layouts into clean, production-ready frontend components to optimize user engagement.
- **Integrated REST APIs** to manage dynamic data rendering, product listings, and smooth client-side interactions.
- **Optimized application performance** through rigorous code refactoring, asset management, and lazy loading techniques.

Data Analyst — Deep Learning (FYP)

Institute of Management Sciences | Peshawar, Pakistan | Sep 2025 — Sep 2026

- **Developed an end-to-end computer vision pipeline** for "Grape Leaf Disease Detection and Severity Classification Using XAI," leveraging advanced architectures like **EfficientNet** and **ResNet**
- **Executed comprehensive data preprocessing**, cleaning, and exploratory data analysis (EDA) on complex agricultural image datasets, coupled with custom data augmentation.
- **Tuned model hyperparameters** and applied transfer learning strategies to maximize classification accuracy and model reliability.
- **Visualized model evaluation metrics** and interpreted predictions to clearly communicate technical findings to academic supervisors and evaluators.

EDUCATION

BS in Data Science

Institute of Management Sciences (IM Sciences), Peshawar | Jan 2022 — Present (Expected 2026)

Relevant Coursework: Machine Learning, Data Mining, Database Systems, Statistics, Web Technologies, Algorithms & Data Structures

Intermediate in Computer Science

Islamia College, Peshawar | Jan 2020 — Jan 2022

Matriculation (SSC)

Peshawar Model School Boys IV, Peshawar | Completed Jan 2020

CERTIFICATIONS

Google Data Analytics Professional Certificate — *Google* | 2024

Covers data cleaning, analysis, visualization, and dashboard reporting using tools including SQL, R, Tableau, and Spreadsheets.

Google AI Essentials Certificate — *Google* | 2024

Covers foundational AI and machine learning concepts, responsible AI practices, and practical applications of AI tools.

KEY PROJECTS

Computer Vision Classification System (FYP)

Deep learning model using EfficientNet / ResNet for multi-class image classification, built with TensorFlow/Keras. Includes full data pipeline, augmentation, and evaluation dashboard.

Gear Nest E-Commerce

Production React.js web application for Gear Nest, featuring dynamic product pages, API integration, and a responsive mobile-first design.
